

TrekIndia

50 NEW East India & North-East Trekking Companies / Operators

A third, non-overlapping operator set focused on Sikkim, West Bengal's Himalayan gateway region, Meghalaya, Nagaland, Arunachal Pradesh and Odisha / the Eastern Ghats.

Focus	Eastern Himalayas + North-East India + Eastern Ghats: Sikkim, Meghalaya, Nagaland, Arunachal Pradesh and Odisha.
Uniqueness	These 50 operator names are intended not to repeat the companies in TrekIndia's previous two 50-company PDFs.
Important	For operators listed through government directories, the official government tourism page is provided when a separate company website could not be verified. Route lists are representative and should be individually verified before production mapping.

Operator Directory

Region	Odisha / Eastern India
Representative treks / outdoor routes	Odisha nature trails • Eastern Ghats • Koraput region • Daringbadi outdoor excursions

TrekIndia Mapping Recommendation

For production, map a company to a trek only when the exact route is supported by an operator page or an authoritative tourism listing. Government-recognized operators are valuable candidates, but regional authorization alone does not prove that an operator conducts every trek in that region.

Field	Recommended value
company_id	Unique company record
trek_id	Existing TrekIndia trek record
official_site_url	Company's own site, or official government operator listing when no company site is verified
specific_trek_url	Exact page proving the company conducts the trek
operator_trek_name	Exact route name used by the operator
region	State / trekking region
operator_type	Dedicated trek operator / adventure operator / DMC / government ecotourism
verification_status	verified / needs_review / unavailable
last_verified_at	Date of last verification

Research Notes

- Sikkim Tourism's published Grade-A list includes several of the Sikkim operators in this directory, while individual operator sites such as Adarsh Tours and Mountain Tours explicitly market trekking.
- Meghalaya Tourism currently promotes operators and packages featuring Nongriat / Double-Decker Living Root Bridge trekking, jungle trekking and hiking.
- Nagaland Tourism publishes a government-approved operator directory that includes Explore Nagaland, Alder Tours, India Trail, Khonoma Tours & Treks, Naga Bivouac, Adventure Nagaland Tours and Trail Trekkers.
- Arunachal Tourism publishes a registered tour-operator directory and explicitly identifies trekking as a major adventure activity. West Kameng also publishes registered operators such as Himalayan Holidays.
- Odisha Tourism publishes trekking trails and recognized local tour operators; Deomali and the Eastern Ghats are especially relevant to TrekIndia's East India catalogue.

Prepared for TrekIndia • 16 August 2026 • Research reference; exact route availability, permits and operator departures must be rechecked before production display.
