

TrekIndia

50 NEW South India Trekking Companies & Operators

A second, non-overlapping operator set focused on Karnataka, Kerala, Tamil Nadu, Telangana and the wider South India region. Each entry includes its official website and representative trek, hiking or outdoor routes/experiences.

Focus	South India — Western Ghats, Nilgiris, Munnar, Wayanad, Karnataka, Tamil Nadu, Telangana and nearby regions.
Uniqueness	These 50 names are intended as a new set and do not repeat the 50 names from the previous TrekIndia company PDF.
Verification	Official websites and current operator pages were used where available. Route lists are representative; attach the exact trek-page URL before marking a trek-company relationship as production-verified.

Operator Directory

Region	Kerala
Representative treks / outdoor routes	Kerala hill experiences • Western Ghats excursions • Nature and adventure itineraries

Recommended TrekIndia Mapping

For production, do not treat a regional operator as proof that it conducts every trek in that region. Create a many-to-many mapping and verify the exact route.

Field	Recommended value
company_id	Unique TrekIndia company ID
trek_id	Existing TrekIndia trek ID
company_name	Operator name
official_site_url	Official company website
specific_trek_url	Exact operator page for the trek
operator_trek_name	Exact name used by the operator
state / region	Where the trek is conducted
verification_status	verified / needs_review / unavailable
source_checked_at	Date of last verification

Research Notes

- Tamil Nadu's Trek Tamil Nadu platform is a government initiative and currently publishes 44 public trails; it is an official trekking platform rather than a conventional private company.
- Kerala Tourism lists accredited adventure operators, while KFDC and Thenmala Ecotourism directly operate trekking/ecotourism programmes.
- Some entries are broader tour operators or ecotourism organizations that include trekking among their outdoor products. TrekIndia should store an operator_type field to distinguish dedicated trekking companies from broader travel operators.
- Route availability, permits and seasonal departures can change. The company-trek relationship should therefore have a last_verified_at field.

Prepared for TrekIndia • 16 August 2026 • Research reference; route availability and permits must be rechecked before production display.
