

TrekIndia

50 Indian Trekking Companies & the Treks They Conduct

Research reference for the Trek ↔ Company mapping layer. The route lists below are representative/currently observed offerings, not exhaustive catalogues. Before production use, TrekIndia should verify each company-trek relationship at route level and store the specific trek page as the source.

Purpose	Identify trekking operators that can be linked to TrekIndia's trek catalogue and provide an official company website for discovery/booking.
Recommended DB relation	TREKS → COMPANY_TREKS → COMPANIES. Store company_id, trek_id, company_trek_name, booking_url, source_url, verification_status and last_verified_at.
Important	A company should appear on a trek card only when the operator's site (or a reliable source) confirms that specific route. Do not infer a relationship solely from regional coverage.

Operator Directory

1. Indiahikes	https://indiahikes.com/
Coverage	Uttarakhand, Himachal Pradesh, Kashmir, Sikkim, West Bengal, Central India

Recommended TrekIndia Data Structure

Use a many-to-many relationship because one trek can be offered by many companies and one company can conduct many treks.

Field	Purpose
company_id	Foreign key to the company record
trek_id	Foreign key to the TrekIndia trek
company_trek_name	Exact trek name used by the operator
company_url	Official company website
trek_page_url	Specific operator page for this trek
booking_url	Direct booking/enquiry page, if available
source_url	Evidence used to verify the relationship
verification_status	verified / needs_review / unavailable
last_verified_at	Date the operator listing was checked

Verification Notes

- Current operator pages were checked for a sample of the listed relationships, including Indiahikes, Bikat Adventures, Trekup India, JustWravel, TrekNomads, Escape2Explore, Kalandi Adventures, Red Chilli Adventure, Himalaya Trekkers, The Searching Souls, India Treks, Montaxe and Sahyadri Trekkers.
- Some operators publish broad regional trekking catalogues rather than a single stable route list. Those entries should be treated as candidates until the exact trek page is attached.
- Route availability is seasonal and can change. A company being listed here does not mean a trek has an available departure on a particular date.
- Some routes have government/forest/permit restrictions. TrekIndia should show the operator link and verification date rather than implying guaranteed availability.

Prepared for TrekIndia • 16 August 2026 • Research reference, not a booking guarantee.
