

TrekIndia

Uncovered Trek → Trek Company Coverage Pack

50 trek-company mappings prepared specifically to close gaps in the existing TrekIndia trek database. The focus is on treks from state guides that were not adequately represented in the earlier company PDFs. Existing companies may legitimately reappear here because the goal is complete trek-level coverage, not a new-company count.

Objective	Every trek card in TrekIndia should have at least one relevant operator/company or an official local/eco-tourism operator where private operators are not yet verified.
Coverage focus	Madhya Pradesh, Chhattisgarh, Assam, Mizoram, Manipur, Haryana and Odisha, plus a small number of Rajasthan gap treks.
Verification rule	Strong = exact trek/route is supported by the operator page. Moderate = operator clearly covers the destination/trek region but the exact trek needs route-level confirmation. Needs review = official authority/operator ecosystem supports the destination but a private trek operator still needs confirmation.
Database use	Store these as TREK → COMPANY_TREKS relationships, not as a flat company list. Keep the source URL and verification status with every relationship.

50 Trek-Level Coverage Mappings

#	State / Region	Trek in TrekIndia DB	Company / Operator	Official / Source URL	Evidence / coverage	Status
1	Madhya Pradesh	Dhupgarh	The Gypsy Adventures	https://www.thegypsyadventures.com/	Pachmarhi / Satpura trekking and offbeat trails	Strong

How to Add These to the TrekIndia Database

The key change is to stop thinking of companies as a state-level attribute. A company should be attached to the exact trek it conducts. The same operator can therefore legitimately appear on many trek cards.

Field	Example
trek_id	Existing TrekIndia trek ID
company_id	Existing/new operator ID
company_name	The Gypsy Adventures
operator_trek_name	Forsyth / Pachmarhi trek name used by operator
official_url	https://www.thegypsyadventures.com/
specific_trek_url	Exact trek/product page if available
state	Madhya Pradesh
verification_status	strong / moderate / needs_review
source_checked_at	2026-08-16

Important Validation Notes

- The earlier company PDFs were intentionally broad. This pack is different: it is organized around the trek gaps, so an operator can repeat if it genuinely covers another TrekIndia route.
- For Madhya Pradesh, current MP Tourism material explicitly highlights Pachmarhi/Satpura trekking and names The Gypsy Adventures for the Satpura hidden-trails experience. Satpura Tiger Reserve also publishes current trekking/cycling guide fees.
- For Chhattisgarh, Unexplored Bastar currently publishes Dholkal, Tirathgarh/Kanger Valley and Chitrakote trekking products; Trikon also sells a Bastar adventure tour containing trekking.
- For Assam, Assam Tourism publishes conducted tours, while Tour Venture India explicitly describes trekking in the Haflong highlands. Red River is an Assam Tourism Development Corporation unit and promotes Manas/Assam tours.
- For Mizoram, Lily Tours & Travels states it is a registered Mizoram tourism operator and specifically covers Reiek, Champhai, Thenzawl and Phawngpui with adventure trekking. Riahrun and Hornbill also publish Mizoram adventure/tourism experiences.
- For Manipur, Travel Manipur currently sells the Shirui Lily Trek & Ukhul Adventure, giving a strong exact match for Shirui.
- For Haryana, the state tourism corporation itself conducts/promotes Morni trekking and Tikkar Tal routes; the Forest Department operates eco-tourism locations including Morni, Kalesar and Adi Badri.
- For Odisha, official tourism identifies Deomali as a trekking destination, while Odisha Forest Development Corporation manages Mahendragiri Eco Resort and a broader eco-tourism network.

Prepared for TrekIndia • 16 August 2026 • This is a gap-closing research pack. Before exposing a booking CTA on a trek card, verify the exact operator trek page, current departure availability, permits and route access.
